Programming Experience

Web Developer

WOS (Well-Being Company)

February 2022 - Present

- Designed an *e-commerce* [website](#) to purchase tangible goods (clothing) and digital goods (wallpaper).
- Customised layout, colour palette to *match* the brand's image and aesthetics.
- Created and organised a catalogue to sell products.
- Integrated payment gateway for *secure* transactions.
- Used Wordpress, Woocommerce, PHP, HTML and CSS.

Web Developer

ThaiList (Personal Project)

- A [website](#) specifically for those who travel to Thailand and want to learn practical words.
- Only includes essential phrases that they will actually use.
- Incorporated Strapi, a headless CMS, to manage and create content.
- Deployed with Heroku and Vercel for more flexibility and support.
- Tech-Stack includes: Nextjs, Nodejs, React, Javascript, XML and CSS.

Web Developer

Portfolio (Personal Project)

- Made a [resume-website](#) to display projects. Designed the layout to be simple so it's easy to navigate.
- Added *animations* via transitions to buttons so users can interact better.
- Added automatic slides that resemble polaroids to display projects.
- The colour palette was chosen to stand out, to balance out the minimalism in the design.
- The rule of three is applied in sections, navbar and slides.
- Tech-Stack includes: Nextjs, Nodejs, React, Javascript, XML and CS

Teamwork & Management Experience

Restaurant Manager

District Mot

July 2017 - July 2021

- Lead a team of 10. Arranged a quality dining experience for over 200 customers a day. Organised holidays, rotas and stocks. Trained 5 new staff and established a clear communication between bar, kitchen and tables.

Values & Interests
